

1: View over Cornelius Pass Rd Northbound

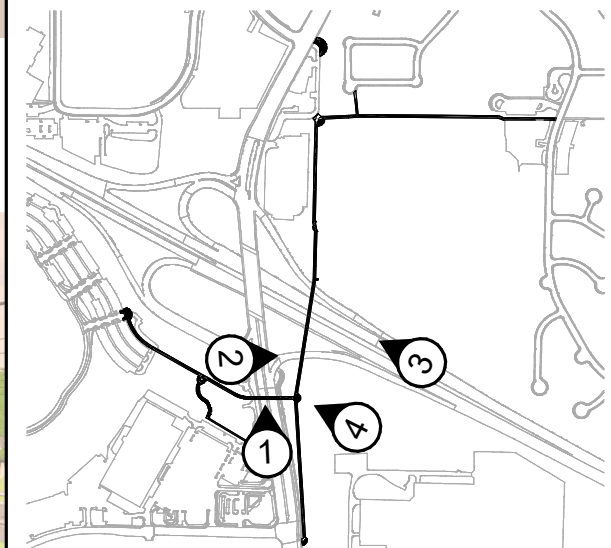

3: Driver's Perspective on US26 Westbound

2: On-Bridge View Approaching CPR Crossing Eastbound

4: Aerial View Looking Northwest at Trail Intersection

**BRIDGE OPT. 5 -
TRIANGULAR**

5.0

Note: Bridge elements shown for overall shape and proportions. Connecting ramps, railings, and supporting bents are placeholders. Materials, colors and connection details will be determined in future design phases.

OPTION 5 - TRIANGULAR

A single, monumental triangular arch clear spans Highway 26 to create a landmark for both the roadway and trail systems. A secondary triangular truss spans Cornelius Pass Road. This design provides a unique on-bridge experience with a suspended trail crossing through the skewed arch.
